**For Immediate Release**

## **MCMAHON ASSOCIATES TO PERFORM PROJECT DEVELOPMENT AND ENVIRONMENT (PD&E) STUDIES FOR FDOT DISTRICT SIX**

**Fort Lauderdale, Florida** – McMahon Associates, Inc., a full-service transportation engineering firm, has been selected, as a subconsultant, by FDOT District Six, for a 5-year districtwide contract to perform Project Development and Environment (PD&E) Studies and serve as Traffic Consultant. This PD&E contract is the first of a project of this scope for McMahon Associates. McMahon’s work will consist of engineering studies on specific portions of transportation improvement projects, and tasks such as data collection, and analysis. McMahon’s goal is to assist FDOT in engineering decisions on type, design and location of improvements for transportation facilities.

McMahon Associates is a highly valued transportation engineering and planning firm with 28 years of service excellence. With 120 full-time employees, the firm currently has three offices in Florida, and four additional offices in Pennsylvania and Massachusetts. For more information, please contact John DePalma, vice president at (954) 771-0776 or via email to [john.depalma@mcmtrans.com](mailto:john.depalma@mcmtrans.com).
