For Immediate Release

McMAHON ASSOCIATES, INC. APPOINTS NEW ASSOCIATES OF THE FIRM

Fort Washington, PA - McMahon Associates, Inc., a full-service transportation engineering and planning firm with over 27 years of service, proudly announces the newest Associates of the firm Christopher J. Williams, P.E., senior project manager, and John J. Mitchell, P.E., senior project manager.

Since joining McMahon Associates, Messrs. Williams and Mitchell have been credited with establishing and managing several key public and private client projects, while expanding the firm's market area and services. Specifically, Mr. Williams is recognized for helping to start-up and head our Exton (West Whiteland Township), PA office while building a solid Chester County client base. This strategic office location has provided McMahon Associates the local presence to effectively meet clients' needs in this rapidly growing region. Mr. Mitchell has helped to establish the firm's proven reputation for design excellence by securing PennDOT highway and structural design contracts. He has also successfully maintained several long-standing relationships with some of the firm's most loyal municipal clients.

Mr. Williams received his Bachelor of Science degree in Civil Engineering in 1991 from the University of Delaware and has since been involved in comprehensive traffic/transportation engineering

-more-

and planning. His experience includes PennDOT project needs analysis studies, FHWA environmental impact statement analyses, DelDOT safety studies and corridor location studies, as well as site development parking studies and traffic impact studies.

Mr. Mitchell received two Bachelor of Science degrees, Civil Engineering in 1991 and Civil Construction, Engineering Technology in 1987. His thirteen years of highway design and site development experience includes needs studies, environmental studies, design location studies, preliminary and final design of highways and roadways, multi-use trail planning and design, and preliminary design coordination of bridge and foundation types.

Through their hard work and dedication to the community and the industry, both of these senior project managers have gained a reputation for exceeding clients' expectations.

McMahon's three mid-Atlantic offices, located in Fort Washington (corporate headquarters), Exton, and Middletown (Harrisburg), PA, combined currently employ 85 of the company's 110 full-time employees. It also has offices in Florida and New England. McMahon's services include transportation planning/traffic studies, land survey, traffic signal design and permitting, highway design and permitting, structural design, Intelligent Transportation Systems, and construction services for both public and private clients. For more information, please contact Rodney P. Plourde, P.E., president, at (215) 283-9444, or via email to rod.plourde@mcmtrans.com.
