**For Immediate Release**

## **McMAHON ASSOCIATES, INC. ANNOUNCES MANAGEMENT PROMOTIONS**

**Fort Washington, PA** - McMahon Associates, Inc., a full-service transportation engineering and planning firm with 28 years of service, is proud to announce the promotions of John (Jack) J. Mitchell, P.E. to Design Group Manager, Mark A. Roth, P.E. to Traffic Group Manager, and Stephen C. Giampaolo, P.E. to Senior Project Manager.

Jack Mitchell has over 17 years of highway design experience. His combined knowledge and experience allows him to evaluate highway design and transportation needs, determine solutions to those needs, and carry those solutions through final design and construction. Mr. Mitchell has also participated in a variety of transportation planning and design projects including needs studies, EIS studies, design location studies, preliminary and final design of highways and roadways, on-road bicycle lanes, multi-use off road trail planning and design, and design coordination of bridges and retaining walls. He also has specific experience working with PENNDOT and the Pennsylvania Turnpike Commission on major and minor highway design projects.

Mark Roth has 13 years of transportation engineering and planning experience ranging from conducting area wide transportation and corridor traffic studies to preparing transportation engineering impact studies. He has performed engineering and planning services for municipalities, states, and other professionals regarding present and future traffic patterns, congestion management strategies and

applications, corridor development improvements, improvement designs based on study area needs, and regional highway network modeling. Mr. Roth will head up the Traffic Group located in their Fort Washington Office.

Stephen Giampaolo has 10 years civil/highway engineering experience. His work includes highway occupancy permit process for access design and municipal projects. His experience involves design and construction management projects involving roadway and pavement design, traffic signal design, storm sewer and sanitary sewer design, utility coordination, traffic control/detour plans, residential subdivision design, and construction plans. Mr. Giampaolo works closely with clients and the Department to facilitate project completion.

McMahon Associates' mid-Atlantic offices are located in Fort Washington (corporate headquarters), Exton and Harrisburg, PA, and Yardville, NJ combined currently employ 90 of the company's 120 full-time employees. It also has three offices in Florida and one in New England. McMahon's primary services include transportation planning/traffic studies, expert witness testimony, land survey, traffic signal design and permitting, highway design and permitting, structural design, Intelligent Transportation Systems, GIS, and construction services for both public and private clients. For more information, please contact Joseph J. DeSantis, P.E., P.T.O.E., vice president and regional manager, at (215) 283-9444, or via email to [joe.desantis@mcmtrans.com](mailto:joe.desantis@mcmtrans.com).
