For Immediate Release

McMAHON ASSOCIATES, INC. ANNOUNCES NEW HIRE AND PROMOTIONS

Fort Washington, PA - McMahon Associates, Inc., a full-service transportation engineering and planning firm with over 30 years of service, is proud to announce the addition of George Spadaro, project manager, Thomas O. Lindsey, P.E., project manager, as well as the promotions of John J. Mitchell, P.E., Dean A. Carr, P.E., John F. Yacapsin, P.E., and Matthew M. Kozsuch, P.E.

George R. Spadaro joins McMahon as a project manager in the firms design department in Fort Washington, Montgomery County. Mr. Spadaro has over 20 years of experience in highway design, preparing everything from highway construction plans, signal plans, erosion control plans, horizontal and vertical design, stormwater design, traffic control plans, and pavement markings and signing. Mr. Spadaro holds a bachelor of civil engineering degree and is a member of the American Society of Highway Engineers.

Thomas O. Lindsey joins McMahon as a project manager in the firms design department in Exton, Chester County. Mr. Lindsey has over 12 years of civil/highway engineering experience. His work experience includes the design and approval of transportation improvement projects in accordance with PENNDOT's transportation improvement projects in accordance with PENNDOT's transportation engineering procedures for state highway projects. Mr. Lindsey holds a bachelor of science degree in civil engineering from Penn State University.

John J. Mitchell, P.E., was recently promoted to general manager of the Fort Washington office. Mr. Mitchell has been with the firm for over 8 years serving as senior project manager. With over 16 total years of

experience, Mr. Mitchell has managed a variety of small roadway to complex highway design projects that has involved traffic, culverts and bridges.

Dean A. Carr, P.E. was recently named design manager for the Fort Washington office. Mr. Carr has been with the firm for over 11 years, since graduating from Penn State in 1994. He specializes in highway design including horizontal and vertical geometry, drainage design, traffic signal design, utility coordination, traffic control layout and design, construction management, along with numerous other highway design related activities. Mr. Carr is an active member of the American Society of Highway Engineers.

John F. Yacapsin, P.E., who was recently named an associate of the firm, will now serve as head of design for all of the mid-Atlantic region. Mr. Yacapsin joined the firm in 2004, bringing over 17 years of experience in public and private highway and structural design projects. His extensive project experience includes roadway and bridge design, hydraulics, permitting, contract plans, specifications, inspection and cost estimates for transportation projects. Mr. Yacapsin is an active member of the American Society of Highway Engineers and the Consulting Engineering Companies of Pennsylvania.

Matthew M. Kozsuch, P.E., was recently named mid-atlantic manager – ITS/signals. Mr. Kozsuch's duties include managing project budgets, time schedules, and staff, as well as acting as primary contact for McMahan clientele. His 11 years of engineering experience includes design and implementation of fiber optic and wireless traffic signal control systems, capacity and progression analysis of roadways, design calculations and warrant analysis in accordance with state and federal guidelines. Mr. Kozsuch is an active member of the Institute of Transportation Engineers and the International Municipal Signal Association.

McMahon Associates' mid-Atlantic offices are located in Fort Washington (corporate headquarters), Exton and Mechanicsburg, PA, and Yardville, NJ combined currently employ 90 of the company's 130 full-time employees. It also has four offices in Florida and one in New England. McMahon's primary services include transportation planning/traffic studies, expert witness testimony, land survey, traffic signal design and permitting, highway design and permitting, structural design, Intelligent Transportation Systems, GIS, and construction services for both public and private clients.
