Happy 35th Anniversary!

On this date 35 years ago, a transportation engineer embarked with his wife and family on what was to become a wild and exhilarating journey. The early goal was modest-to be a single practitioner who would serve clients with personalized, high quality engineering service.

The last 35 years seem to have gone by in the blink of an eye.

In 1983, after 7 years expanding into many nooks and crannies of our house and hiring neighborhood housewives and their kids, we moved to our first “real” office on the second floor of the Willow Grove Savings Bank. My desk was a 4X8 sheet of plywood covered by the finest simulated walnut contact paper that money could buy. The couch was the back seat from our Dodge Caravan vehicle.

The intervening years involved many new offices, growing to as many as 11 offices in five states and a staff exceeding 150. Our growth over the years took us from minimal revenues to well over \$17 million annually.

Fast forward to today, where, as a result of extraordinary efforts by so many of you, we are a well-respected, full-service transportation engineering firm with expanding initiatives in IT/GIS, water resources and managing our real estate investment in the 35,000 square feet of 425 Commerce Drive. We serve clients throughout the east coast and are excited to look forward to an optimistic future.

Mrs. M and I want to extend out our sincere thanks to all of you, our advisors and the many clients who have made this exceptional trip an incredible joy in our lives! Thank you all!

Enjoy the day and Happy Anniversary.

- Joseph W. McMahon, P.E.
