## **McMAHON ASSOCIATES, INC. ANNOUNCES NEWLY CERTIFIED PROFESSIONAL TRAFFIC OPERATIONS ENGINEERS**

**Fort Washington, PA, December 10, 2008** - McMahon Associates, Inc., a full-service transportation engineering and planning firm with over 32 years of service, is proud to announce that Sandy Koza, P.E., PTOE, and Brian DiBiase, P.E., PTOE recently achieved Professional Traffic Operations Engineer (PTOE) certification.

The PTOE certification sponsored by the Transportation Professional Certification Board, Inc., and enacted by the Institute of Transportation Engineers, is a display of requisite knowledge, skill, and ability in traffic operations engineering. An individual must be a licensed professional engineer and have at least four years of professional traffic engineering experience prior to taking the exam. The exam consists of 150 multiple-choice questions and problems on six areas of traffic operations engineering: traffic operation analysis, operational effects of geometric designs, traffic safety, traffic control devices, traffic engineering studies, and social, environmental and institutional issues. The certification acknowledges competence to provide exceptional professional traffic operations engineering services with a commitment to promote and protect the safety of the general public.

Ms. Koza, a project manager of McMahon, has 10 years of experience in traffic engineering. She received both her bachelor of science and master of science in civil engineering from Pennsylvania State University. Additionally, she is a registered professional engineer in Pennsylvania.

Corporate Headquarters: Fort Washington, Pennsylvania

Serving the East Coast from 11 offices throughout New England, the Mid-Atlantic, and Florida

Mr. DiBiase, a senior project engineer, has seven years of experience in highway design. He received his bachelor of science in civil engineering from Villanova University. He received his Pennsylvania professional engineering (P.E.) license in January 2006.

McMahon's mid-Atlantic offices are located in Fort Washington (corporate headquarters), Exton and Camp Hill, PA; Yardville, NJ; and Bowie, MD, and combined currently employs 95 of the company's 140 full-time employees. It also has four offices in Florida and two in New England. McMahon's primary services include transportation planning/traffic studies, traffic signal design and permitting, highway design and permitting, structural design, Intelligent Transportation Systems, Geographic Information Systems, land survey, and construction services for both public and private clients. For more information, please contact Joseph J. DeSantis, P.E., PTOE, executive vice president and regional manager, at (215) 283-9444, or via email to [joe.desantis@mcmtrans.com](mailto:joe.desantis@mcmtrans.com).
